**OCRIM**

**PAGLIERANI**

**AXOR OCRIM**

**OCRIM** has been working since 1945 as a company specialized in the construction of milling plants, corn and cereals in general, feed mills, electrical systems, silos and grain conveying systems. OCRIM is specialized in "turnkey formula" projects too, therefore it offers a complete management of the entire production process, and for this reason OCRIM customers consider the company as a reliable and comprehensive partner.

**PAGLIERANI** has been working since 1926 as leader in the design, construction and installation of machines and complete lines for weighing, packaging, bagging, palletizing, wrapping and lorry loading. The company designs and builds individual machines and complete lines to give the customer the convenience of working with a single supplier. Everything is made in Italy because Paglierani is entirely Italian Made.

**AXOR OCRIM** is specialized in the design and supply of tailor made complete dry pasta lines for short-cut, long-cut and special pasta shapes. It has supplied over a hundred lines with capacities ranging from 500 kg/h to 6,000 kg/h in over 30 countries.

OCRIM also provides training for customer staff: in fact, the International School of Milling Technology, located in via Massarotti (CR), training courses are organized for the milling sector, run by OCRIM team, but also with the collaboration of lecturers and experts from the American headquarters of IAOM. The company exports its Italian Made brand all over the world. For OCRIM team it is very important to show and document the production process that takes place exclusively within the company.

OCRIM's aim is to supply its clients with long-lasting machinery and high-quality products and also offer efficient services.

For this purpose OCRIM, while remaining faithful to tradition, realizes ever more innovative systems to improve and simplify the work of design, production, assembly and testing.

---

The company is the partner that offers innovative solutions and services for several sectors: milling, animal feed, cement and associated product, chemicals and petrochemicals, sugar, milk and dairy, grains etc.

The customers trust in "Paglierani Savoir-Faire" thanks to the continuous research and development, advanced technology applied, incomparable experience of construction and reliability of products and services.

In 2008 Paglierani and OCRIM have signed an important corporate bond and together they are world leaders in the supply of turnkey formula milling plants.

---

Thanks to its continuous investments in technology development and automation, and its strong customer service, Axor Ocrim is today the fastest growing supplier in its field.

Axor Ocrim lines are operated by some of the largest pasta producers in Italy as well as in North and South America, Africa and in the Middle East meeting their most different needs in terms of pasta quality, but also for the tailor-made engineering and the construction standards, starting from single equipments up to complete turnkey projects.

Axor Ocrim range of products has grown in the past years to cover also new products lines as snacks, pellets, gluten free pasta. Also in this field, Axor Ocrim has gained an important reputation selling equipment to some of the largest players in the market in Italy and elsewhere.

Axor Ocrim is participated by Mazzoni LB Group, a leading engineering company specialized in the design and supply of plants and equipment for the soap and confectionary as well as through its controlled company, Bertuzzi Food Processing, for fruit and vegetable processing.

**OCRIM, PAGLIERANI and AXOR OCRIM** are linked together by an important commercial and technical partnership. These agreements signify the intent of the three companies, representing the "Italianity" in the world, to offer a single great partner and satisfy the everyday demands of each customer.
